## Mission & Vision

We believe that betting can actually be a source of income for both the bookies and the bettors, it should not work for only the bookies as is obtainable now, who pockets huge sums of money, leaving the bettors feeling bad about their choices. We want a situation where a bettor can bet with the confidence of winning something at the end of the day, rather than depending on luck, that 80% of the time will not work. We want to put power in the hands of the bettors, eliminating exploitations.

## Albetrage Foundation

The Albetrage Foundation is the heart of the Albetrage ecosystem. It was formed to act as a major player in advancing the adoption of the albetrage platform and its currency ATE token, all over the world. It will play an important role in funding programs or ideas that will assist in building a truly sustainable brand. The Albetrage foundation will also play a very important role in setting policies that will monitor the behavior and performance of the economy of the albetrage ecosystem as a whole. The foundation plays important role in the operation of markets, management of order books, resolves and settles trades on the Albetrage platform.

## Products and Services

Albetrage was developed with the aim of disrupting the betting industry using cryptocurrency and blockchain. The betting industry today is not just broken, but also exploitative. They operate on promises of making bettors rich, but use every trick in their book to confuse and manipulate customers, making them to lose more than they gain, the few that manages to win big, ends up penalized by the betting platforms through limiting their accounts or closing it all together. Albetrage is an anonymous sport betting platform for arbers. It makes use of ATE Token, which is a community driven decentralized cryptocurrency powered by a decentralized TRC-20 smart contract on the Tron blockchain to enable global access to its markets.

## Major Events

- 5%** Legal
- 30%** Marketing and Adoption
- 50%** Foundation

## Foundation Fund

## Key Focus

## Ecosystem budget

### ANONYMOUS BETTING

You don't have to worry about data breaches or leaks since no one has your personal information, no one can trace your purchases. This means no one will know you're gambling unless you want them to. We are not interested in your identity, we only want to see you win.

### GLOBAL MARKETS

Albetrage makes use of ATE Token, which is a decentralized cryptocurrency powered by a decentralized TRC-20 smart contract on the Tron blockchain, it can be transferred peer to peer and enables global access to Albetrage markets. You don't have to worry about exchange rates or fees

### CAREFULLY PLANNED

We want to use cryptocurrency to disrupt the existing model for betting, an industry that worths over \$449.3 billion. We want to empower the bettors, so that they can bet with confidence of winning.

### WALLET

ATE Token can be stored on albetrage.com wallet or on any TRC-20 compatible wallet like Tronlink, Safepal, etc. It can easily be transferred locally and internationally without interference.

### WORLDS BEST ODDS

We offers the biggest odds in the world, no comparison. We also don't reduce our odds like other betting platforms, when they reduce their odds, we increase ours to create an arbitrage.

### VOTING GOVERNANCE

Albetrage betting platform comes with nicely built-in decentralized voting system that allows ATE holders to vote for new developments and bring up their own ideas for implementations. They have ultimate control of the network.
